

Introducing Kayra, our curved modular screen with But the real standout feature of this screen is its acoustic acoustic properties is the perfect solution for offices, lobbies, restaurants, and more. With its unique shape and design, this screen not only serves as a functional divider but also adds a touch of elegance to any space. The curved shape allows for easy repositioning, making it simple to a private workspace in a busy office or a quiet dining area create different configurations and layouts as needed.

properties. The screen is constructed with soundabsorbing materials that significantly reduce noise levels in the surrounding area, creating a more peaceful and productive environment. Whether you're looking to create in a bustling restaurant, this curved modular screen is the perfect solution. With its stylish design and acoustic properties, it's sure to become a staple in any space where privacy and noise reduction are key considerations.

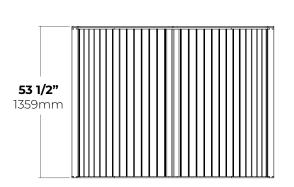

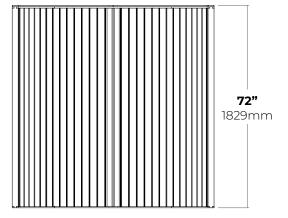

# SPECIFICATIONS

## **KAYRA SCREEN**

MATERIAL EZOBORD 1/2" (12mm)

#### COMPOSITION

100% PET (min. 50% recycled content)

# **ACOUSTICS**

Refer to ASTM C423 test chart for specific absorption rates/frequency.

# **ENVIRONMENT**

Made of polyester fiber, min. 50% of which comes from recycled water bottles which contributes to LEED MR Credit and BREEAM Health and Wellbeing, Materials points due to recycled content, acoustic performance, and low emitting materials. No VOC's: CDPH v1.2 and REACH SVHC Compliant.

# GENERAL

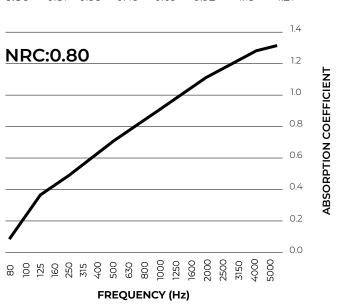

Tackable, impact resistant, bacteria resistant, moisture resistant, installation friendly.

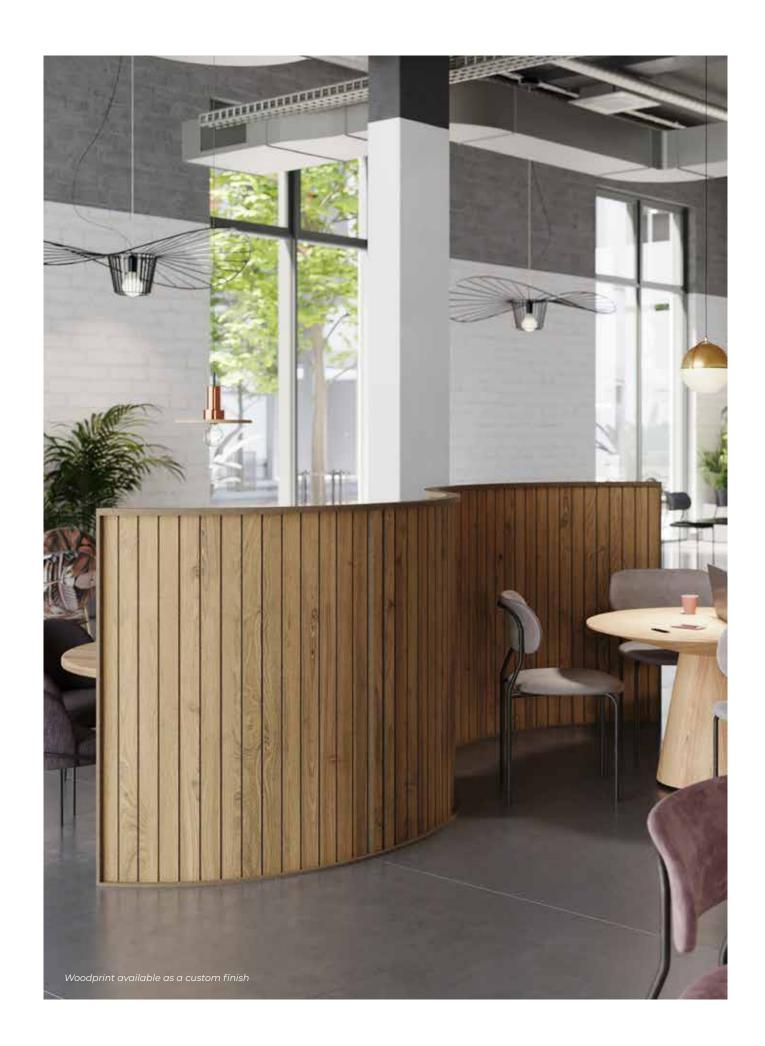

# PATENT PENDING

## SOUND ABSORPTION COEFFICIENTS

ASTM C423-17

| NRC  | SAA  | 125  | 250  | 500  | 1000 | 2000 | 4000 |
|------|------|------|------|------|------|------|------|
| 0.80 | 0.81 | 0.38 | 0.49 | 0.69 | 0.92 | 1.13 | 1.27 |

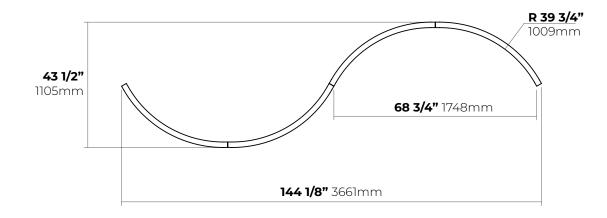

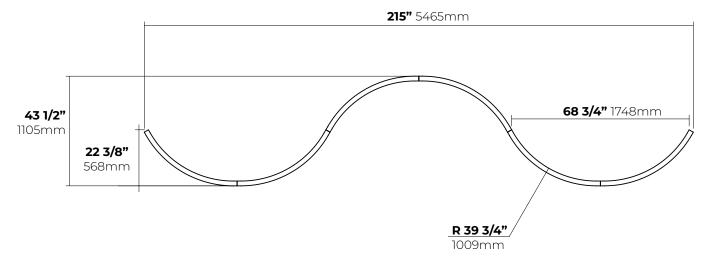

# MODULAR CONFIGURATIONS

HEIGHT 54" / 72"

# COLOR & FINISHES

# EZOBORD COLORS 1/2" (12mm)

# OPTIONAL SURFACE FINISHES

# CUSTOM EZOPRINT

\*EZOPRINT finishes can be applied over EZOBORD Light Beige, Desert Sand, Classic White, Polar Ice base colors.

# ENVIRONMENT

#### Our Commitment to the Environment

There are approximately 50 billion water bottles consumed around the world each year, and only about half of those get recycled. The rest end up in landfills, littered through our neighborhoods, or floating in our oceans.

Bottled water consumption has more than doubled since 2000; in 2015 there was the equivalent of more than 5 bottles of water consumed for every person in the USA every single week. This, of course, means that the amount of oil required to produce the energy used for the water bottling process continues to grow.

In 2007, the last year global statistics of oil consumption were available, between 32 million and 54 million barrels of oil were used to produce the bottled water that was consumed in the USA alone. This energy is used to make the bottles from PET pellets (1 million tons in the USA), treat water, bottle the water, label the bottles, and transport the bottled water. Most of the energy consumption occurs in the creation of the bottles themselves. To help in the lifecycle of this plastic product, we have chosen to manufacture our material so that it recycles these PET bottles. We are doing our part to reduce the waste. This acoustical and tackable material is made from PET bottles in a zero-waste process with postindustrial recycling. An environmentally friendly, sustainable, and waste reduced alternative to traditional acoustical/tackable material that looks great in any office, education, or open space installation.

# **EzoBord** is

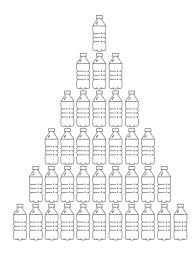

- · low VOC
- · formaldehyde free

# **DID YOU KNOW...**

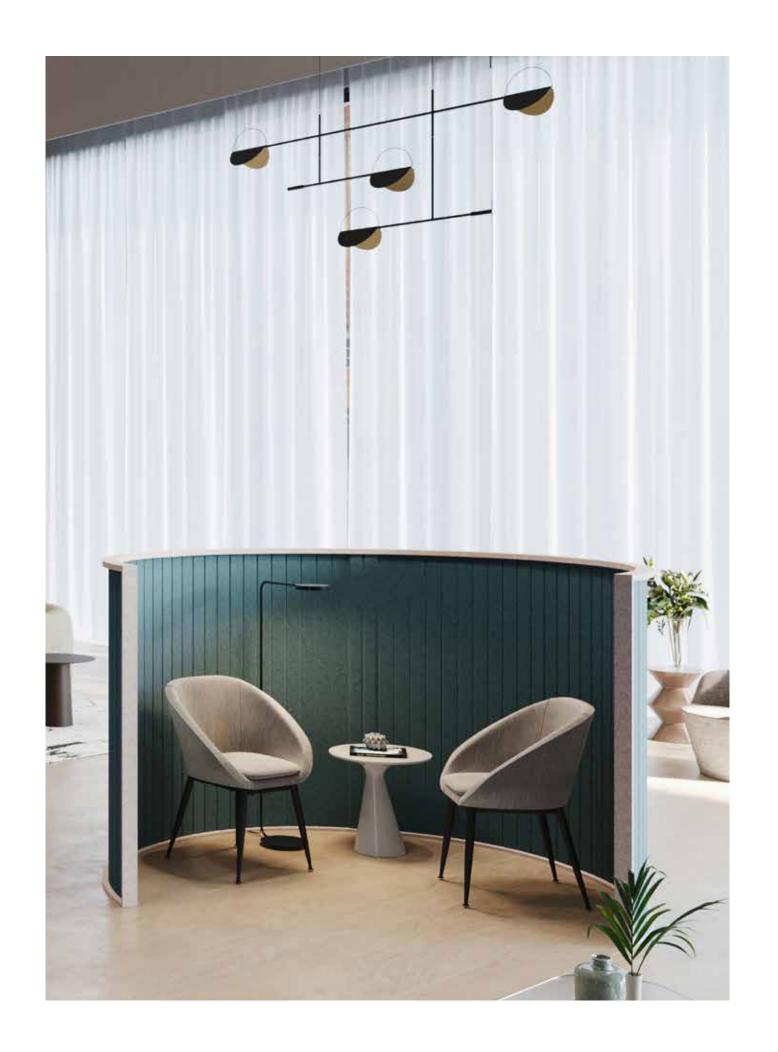

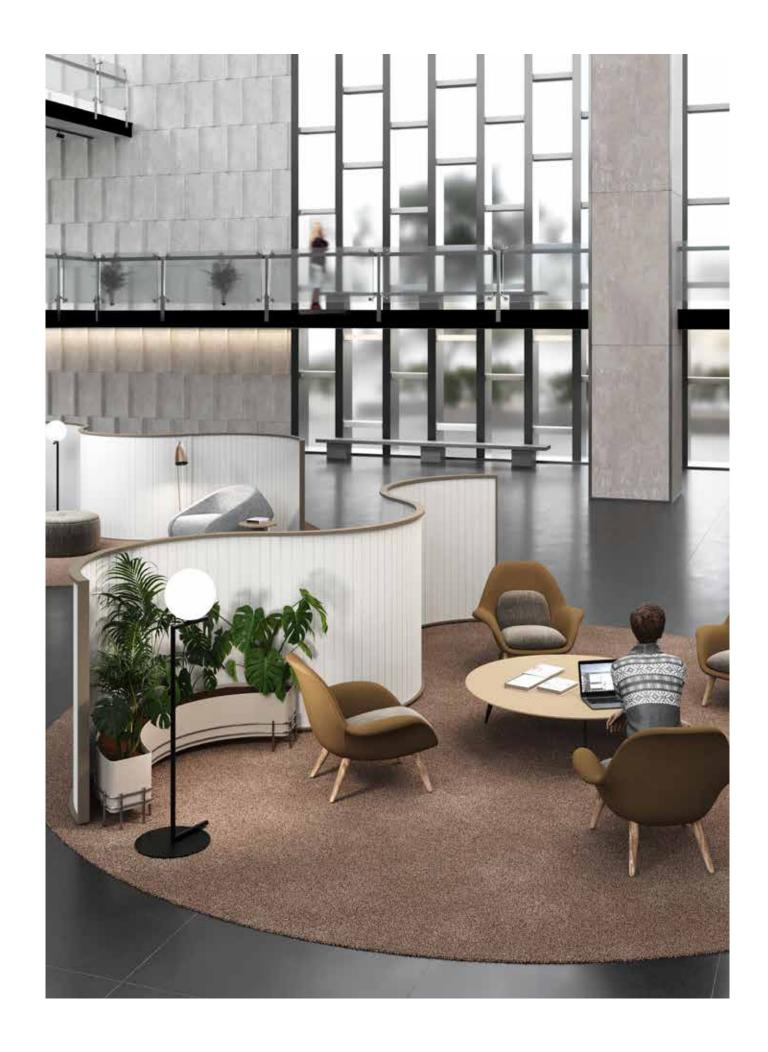

For every pound of recycled PET bottles (approximately 23) energy use is reduced by 84% and greenhouse gas emissions are reduced by 71%.

# **PET BOTTLES**

- **± 166** pet bottles are used to make one 3/8" 9mm thick EzoBord sheet.
- ± 318 pet bottles are used to make one ½" 12mm thick EzoBord sheet.
