MEET PRIVASEAT™

EZOLAYERS FINISH - EZOBORD SILVER GRAY SC04 + EZOFELT GRADE 2 MELANGE SPRUCE 2-562ML

One of the greatest challenges in the office is creating collaborative, open, social workplaces, while maintaining a sense of personal space for employees. PrivaSeat™ takes personal workplace privacy to the next level. It is the only workplace accessory that shelters the user, providing actual visual and audio privacy.

PrivaSeat™ is flexible and malleable and has thoughtfully been designed to attach to almost any standard task chair without impeding functionality. Keep your favorite chair and maintain your personal space while remaining

focused on the tasks that support productive and effective work. PrivaSeat™ helps diminish noise and distractions and is comprised of high-quality sustainable material.

With an array of colors to choose from, PrivaSeat™ can seamlessly be applied to align with your brand palette. The solution is cost effective and easy to set-up without the need for tools or complicated assembly.

# SPECIFICATIONS

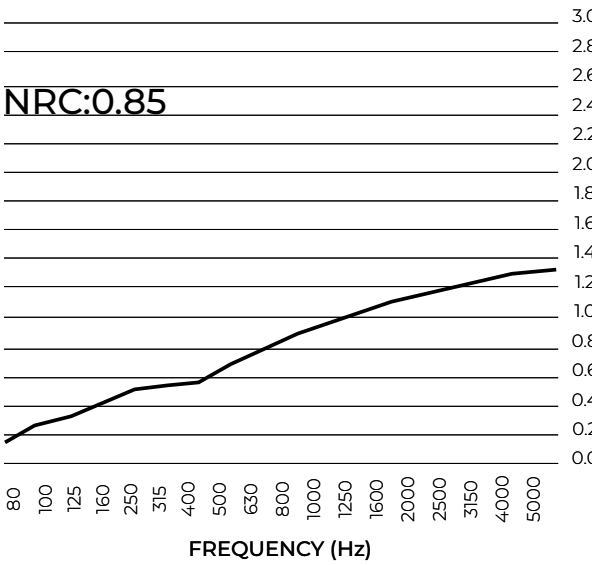

\* Width / Depth may vary depending on chair model PrivaSeat is mounted to.

## SOUND ABSORPTION COEFFICIENTS

ASTM C423-17

NRC	SAA	125	250	500	1000	2000	4000
0.85	0.82	0.37	0.55	0.70	0.92	1.13	1.28

## COMPOSITION

**100% PET** (min. 50% recycled content)

## ACOUSTICS

Refer to ASTM C423 test chart for specific absorption rates/frequency.

## ENVIRONMENT

Made of polyester fiber, min. 50% of which comes from recycled water bottles which contributes to LEED MR Credit and BREEAM Health and Wellbeing, Materials points due to recycled content, acoustic performance, and low emitting materials. No VOC's: CDPH v1.2 and REACH SVHC Compliant.

## GENERAL

Tackable, impact resistant, bacteria resistant, moisture resistant, installation friendly.

## PATENT PENDING

Please note that all dimensions are nominal, supplier reserves the right to change specifications without notice

EZOLAYERS FINISH - EZOBORD CHARCOAL GRAY CG06 + EZOFELT GRADE 2 DAWN 2-552

# EASY INSTALLATION

NO TOOLS REQUIRED

**1** Lay PrivaSeat flat, including the straps, buckles and loop holders.

**2** Adjust any lumbar support features located on the back of your task chair, to your personal comfort before attaching the PrivaSeat.

**3** With two people (or one coordinated and motivated person) position the PrivaSeat centered on the back of the chair and line up the upper and lower straps to the chair arms.

Thread the straps through the inside of the arms and pull around the outside of the arms. Insert the turnbuckle, tighten the straps until the PrivaSeat sits firmly against the full frame of the chair back. Tuck in the remaining strap.

**4**

# ENVIRONMENT

## Our Commitment to the Environment

There are approximately 50 billion water bottles consumed around the world each year, and only about half of those get recycled. The rest end up in landfills, littered through our neighborhoods, or floating in our oceans.

Bottled water consumption has more than doubled since 2000; in 2015 there was the equivalent of more than 5 bottles of water consumed for every person in the USA every single week. This, of course, means that the amount of oil required to produce the energy used for the water bottling process continues to grow.

In 2007, the last year global statistics of oil consumption were available, between 32 million and 54 million barrels of oil were used to produce the bottled water that was consumed in the USA alone. This energy is used to make the bottles from PET pellets (1 million tons in the USA), treat water, bottle the water, label the bottles, and transport the bottled water. Most of the energy consumption occurs in the creation of the bottles themselves. To help in the lifecycle of this plastic product, we have chosen to manufacture our material so that it recycles these PET bottles. We are doing our part to reduce the waste. This acoustical and tackable material is made from PET bottles in a zero-waste process with postindustrial recycling. An environmentally friendly, sustainable, and waste reduced alternative to traditional acoustical/tackable material that looks great in any office, education, or open space installation.

## EzoBord is

- low VOC
- formaldehyde free

## DID YOU KNOW...

For every pound of recycled PET bottles (approximately 23) energy use is reduced by 84% and greenhouse gas emissions are reduced by 71%.

## PET BOTTLES

- ± 166 pet bottles are used to make one 3/8" 9mm thick EzoBord sheet.
- ± 318 pet bottles are used to make one 1/2" 12mm thick EzoBord sheet.
